

# NEWTECH'17

## 3<sup>rd</sup> WORLD CONGRESS

### ON NEW TECHNOLOGIES

Paper Submission: FEBRUARY 3, 2017 | Final Version: MARCH 31, 2017 | Early-Bird Registration: MARCH 31, 2017

**NEWTECH'17 is composed of 4 conferences, while each conference consists of an individual and separate theme, they share considerable overlap, which prompted the organization of this congress.**

The goal of this undertaking is to bring together experts in each of the specialized fields, and at the same time allow for cross pollinations and sharing of ideas from the other closely related research areas. Interested authors, researchers, and industrial experts are invited to register for the conference that best resonates with their technical background. At the same time, attendees are permitted, and even encouraged, to attend talks from co-located conferences.

Submissions in the form of extended abstracts, short papers, and full manuscripts are welcome. All submitted papers will be peer reviewed. All accepted and presented papers will be published in the conference proceedings, under an ISBN reference in a USB drive. The online version of the proceedings will also be published under an ISSN reference and each paper in the proceedings will be assigned unique DOIs by CrossRef.

#### CONGRESS CHAIR

**Andriy Voronov**  
North Dakota State  
University, USA

Andriy Voronov is an Associate Professor in the Coatings and Polymeric Materials at North Dakota State University, USA. His research concentrates on nanostructured materials, responsive materials, polymer sustainable and renewable materials, biomaterials, particularly, colloids, nanoparticles, polymeric surfactants, gels, polymer interfaces, thin films, and polymer composites, as well as on macromolecular design and polymer synthesis.
